RET Plumbing and Electrical (Pty) LTD.
T/A We Do Plumbing

About the Company

- We started small to establish our work ethics, doing only general plumbing maintenance.
- Now established we are ready to offer a more complete service.
- The Plumber is qualified and registered.
- All quotations are free within our operative areas.

M I S S I O N

To offer a one stop contact point to cover all maintenance work for or expanding client base.

I N T E N T

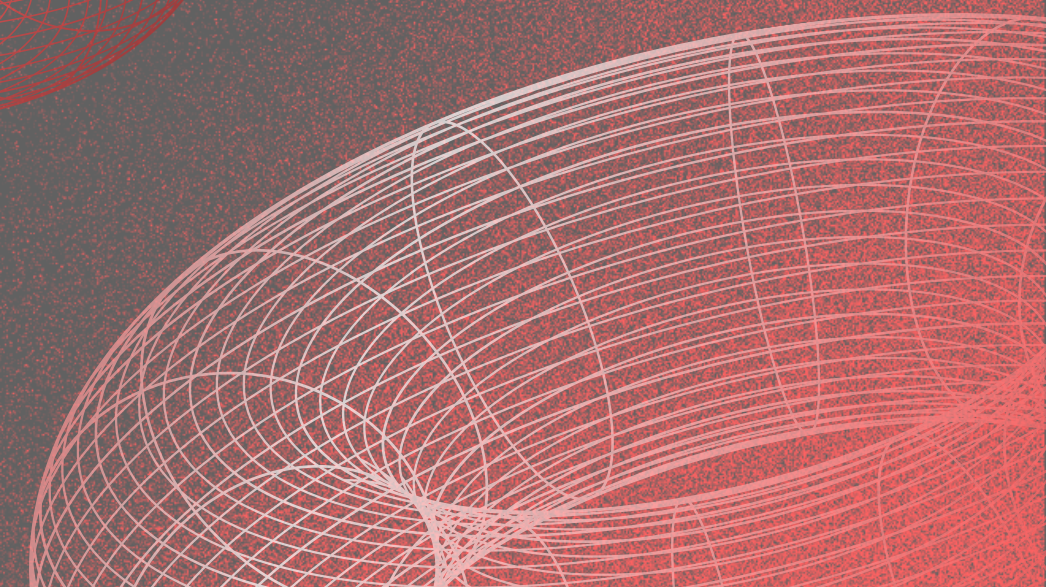

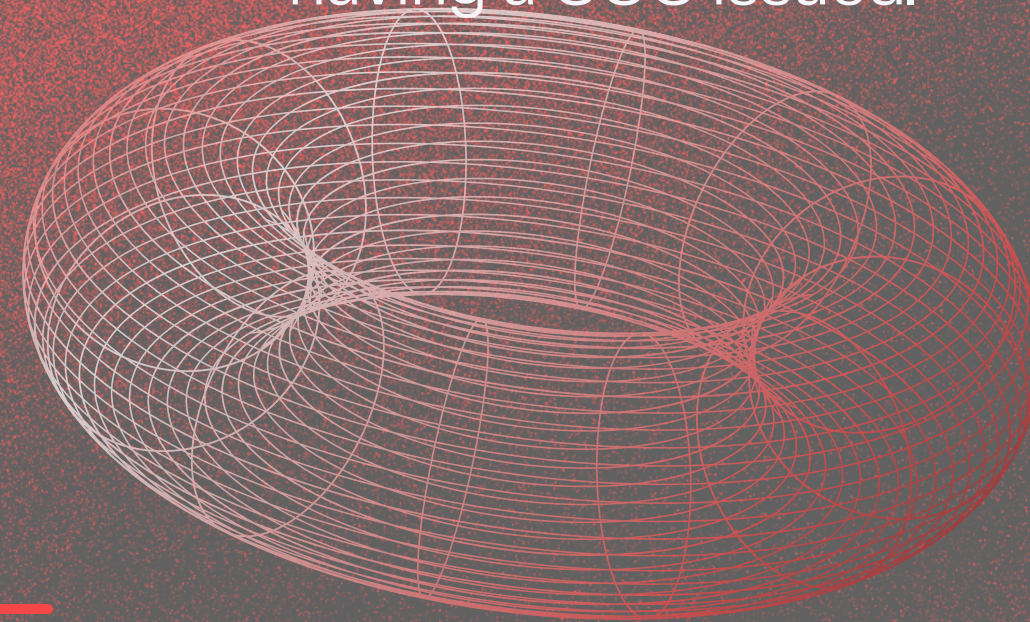

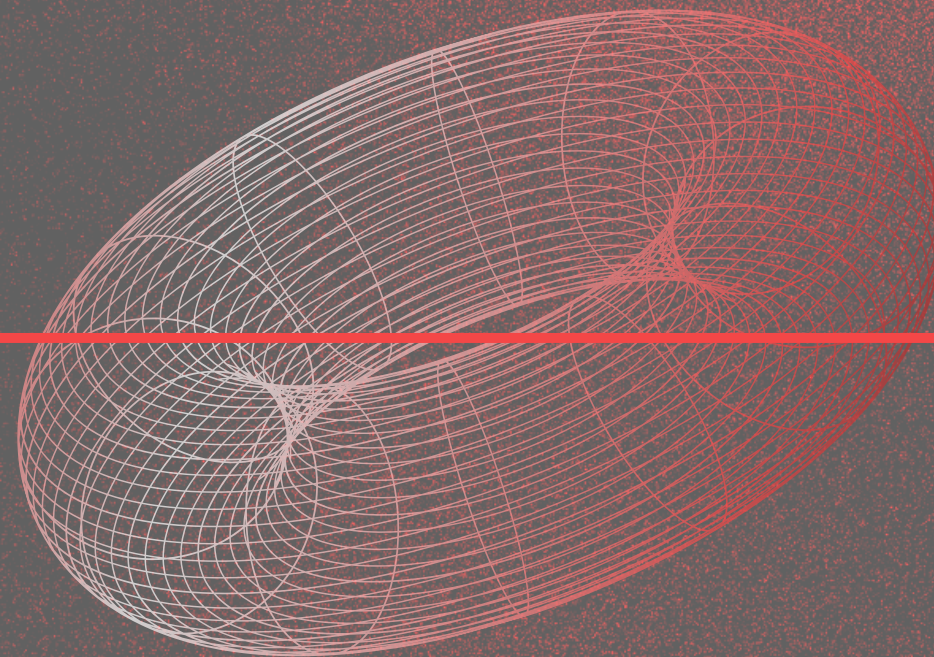

To grow our base services to be able to offer our clients a one stop service

V I S I O N

To ensure that our work ethic satisfies all our clients.

Our Mission and Vision

To offer a report to either a buyer or seller of any residential property, as to the actual condition of the water piping systems before having a COC issued.

About Us

We started business operations in March 2023, and soon found ourselves with a substantial client base, mainly due to Rudi's reputation as a plumber who gets things done.

Each with our own responsibilities we work well together to help our clients.

Passionate about our performance and our reputation we strive to supply our clients with the best and friendliest service possible.

- Leaking Roof Repairs
- Tile Work
- Painting
- Paving
- Repair Wall Cracks
- Shower Seals
- Window Seals

Plumbing Work Done.

Testimonials

10 out of 10.

The crew turned up exactly when they said they would which was important for us so we could manage our busy days. We were kept informed the whole way through a rather large repair job, which involved excavation of the floor slab of the master bedroom, and another extensive excavation externally. There were several surprises along the way due to tree roots and poor installation of the original builder. Through all these issues the schedule was maintained, which was very important to us as we were travelling the day after the works were planned to be completed. The team worked on late overcoming the surprise issues to hit their daily targets through the whole week. The quality of the work was excellent. Really grateful to the team for their hard efforts, long hours and keeping us up to date through the whole process multiple times daily.

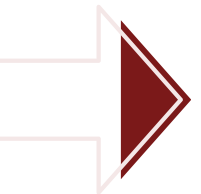

We will be using We Do Plumbing for any of our future plumbing works.

After being surprised by a hefty municipal bill (for excessive water usage), I suspected that there might be a water leak in my property. Estiaan and his team were prompt, friendly and professional. They arranged for a leak detection team to identify the issues and blocked off the leaking pipes shortly after to ensure no further water was wasted.

I would gladly recommend We Do Plumbing

We were very pleased with the efficient service we received from “We do Plumbing”. Upon requesting assistance on 7 August with a geyser that started leaking they quickly closed off the water supply, assessed the situation and had replaced the geyser by the following afternoon. Their job was neatly done and the area where they worked, cleaned.

Thank you and Good job Rudi and Team

Testimonials

This is with confidence and a great privilege to be able to say that we do make use of We do Plumbing for our maintenance work. Always willing to handle the recommended task, and to go that extra mile to solve and complete the recommended tasks in a professional manner.

All the best with your good work.

Their customer service was very good. The plumber who came to my home was professional, knowledgeable, and friendly. He quickly diagnosed and fixed the issue.

I was very impressed with the prompt response to my query - We Do Plumbing came round to check the problem and within a couple of days our toilet had been replaced. The service was excellent - purchasing a new toilet, when it was clear that that was the only possible solution, on our behalf, and installing it quickly and efficiently. The work was done professionally and with no mess at all! Thank you We Do Plumbing!

Regards Kate

Ek wil net baie dankie sé vir die goeie diens wat ek van jul ontvang het. Die probleem het vinnig aandag gekry. Rudi was baie hoflik en het baie moeite gedoen om die lekkasie op te spoor en die pyp te herstel.

Ek kan We do plumbing ten sterkste aanbeveel.

Vriendelike groete

Heloise van der Hoven
